## **ESI Resources Limited Review by the Commission of the Designated Officer Order Issued to ESI Resources Limited on August 30, 2006**

On August 30, 2006, a Canadian Nuclear Safety Commission Designated Officer, pursuant to her authority under paragraph 37(2)(f) of the *Nuclear Safety and Control Act*<sup>1</sup> (NSCA), issued an Order to ESI Resources Limited (ESIRL). The Order required ESIRL to immediately comply with specific actions and measures identified in the Order, pursuant to section 41 of the NSCA.

On September 5, 2006 pursuant to subsection 37(6) of the NSCA, the Designated Officer referred the Order to the Commission for review to confirm, amend, revoke or replace the Order.

The Commission amended the order on May 16, 2007 and issued the *Record of Proceedings* on June 20, 2007.

The following corrections are made to the *Record of Proceedings* document issued June 20, 2007 by the Canadian Nuclear Safety Commission, pertaining to the Review by the Commission of the Designated Officer Order issued to ESI Resources Limited on August 30, 2006.

1. On page four of the document, paragraph 20, the following dates are changed:
  - November 30, 2007 is changed to June 30, 2007
  - August 31, 2007 is changed to October 16, 2006
2. The following two paragraphs are added following paragraph 20:
  21. CNSC staff recommended that the date June 30, 2007 be changed to November 30, 2007, and the date October 16, 2006 be changed to March 30, 2007. CNSC staff explained that this updated timeframe would be appropriate following the rescheduling of the opportunity to be heard to February 7, 2007.
  22. The Commission concurs with CNSC staff's recommendation to change the date from June 30, 2007 to November 30, 2007. Furthermore, the Commission changes the date October 16, 2006 to August 31, 2007. The Commission notes that this change is due to the request for further information following the proceeding on February 7, 2007.
