

ERRATUM

Minutes of the Canadian Nuclear Safety
Commission Meeting held on Wednesday November 5
and Thursday November 6, 2008.

On Wednesday, November 5, 2008 (technical briefing session, beginning at 9:00 a.m.) and Thursday, November 6, 2008 (beginning at 2:00 p.m.), the Canadian Nuclear Safety Commission held a meeting on the matters set out in the agenda CMD 08-M72.A. The meeting was held in the Public Hearing Room, CNSC Offices, 280 Slater Street, Ottawa, Ontario.

The following corrections are made to the Minutes of the meeting that were approved by the Commission on December 11, 2008:

On page 192, paragraph 18, which read as follows:

“Responding to the Commission question if the 2012 target for the EA approval and construction licence could be met, NWMO stated that so far no major delays had been encountered and that it expect to submit an application for a construction licence in early 2011”.

Is changed to:

“With respect to the low and intermediate level waste, the Commission asked OPG if the 2012 target for the EA approval and construction licence for the DGR could be met. OPG stated that so far no major delays had been encountered and that it expects to make licensing submissions in early 2011.”

Marc Leblanc
Secretary of the Commission
Canadian Nuclear Safety Commission

Approved on: January 7, 2009
