# Notice of Hearing

---

July 14, 2010

Ref. 2010-H-110

The Canadian Nuclear Safety Commission (CNSC) will hold a hearing in July 2010 to consider TRIUMF Accelerators inc. (TRIUMF)'s application for an amendment to its operating licence, which authorizes the operation of one Class IB particle accelerator and six Class II particle accelerators. TRIUMF is located in Vancouver, British Columbia.

TRIUMF has applied for a licence amendment to modify a portion of a radiation exclusion area on site for one of its Class II accelerators in order to permit worker occupancy.

The Commission has determined that a public hearing is not necessary to consider TRIUMF's request in this case. There is no opportunity for the public to participate. The hearing will be conducted by way of written submissions from CNSC staff and TRIUMF.

Following the deliberations and decision of the Commission on this matter, a *Record of Proceedings, including Reasons for Decision* will be published on the CNSC Web site and made available to the public.

CNSC staff's recommendations and TRIUMF hearing submission are not available on-line and must be requested through the Secretariat at the address below:

c/o Julie Bouchard
