

Notice of Hearing

May 31, 2011

Ref. 2011-H-107

The Canadian Nuclear Safety Commission (CNSC) will hold a hearing to consider Ontario Power Generation Inc's (OPG) application to amend the Nuclear Power Reactor Operating licences for the Darlington Nuclear Generating Station and the Pickering Nuclear Generating Station B. The reactors are respectively located in Clarington and Pickering, Ontario.

OPG is seeking acceptance from the Commission for administrative changes to the licences to update the revisions of documents.

The Commission has determined that a public hearing is not necessary to consider OPG's request in this case. The hearing will be conducted by way of written submissions from CNSC staff and OPG.

Following the deliberations and decision of the Commission on this matter, a *Record of Proceedings, including Reasons for Decision* will be published on the CNSC Web site and made available to the public.

CNSC staff's recommendations and OPG hearing submission are not available on-line and must be requested through the Secretariat at the address below:
