

Notice of Hearing

June 7, 2011

Ref. 2011-H-108

The Canadian Nuclear Safety Commission (CNSC) will hold a hearing in June to consider Cameco Corporation's (Cameco) application to amend the Blind River Refinery Nuclear Fuel Facility Operating Licence. The fuel facility is located in Blind River, Ontario.

Cameco is seeking acceptance from the Commission to increase the operational time of the incinerator from 12 to 24 hours per day for operational flexibility of the Blind River Fuel Facility.

The Commission has determined that a public hearing is not necessary to consider Cameco's request in this case. The hearing will be conducted by way of written submissions from CNSC staff and Cameco.

Following the deliberations and decision of the Commission on this matter, a *Record of Proceedings, including Reasons for Decision* will be published on the CNSC Web site and made available to the public.

CNSC staff's recommendations and Cameco's hearing submission are not available on-line and must be requested through the Secretariat at the address below:
