

Notice of Hearing

July 14, 2011

Ref. 2011-H-110

The Canadian Nuclear Safety Commission (CNSC) will hold a hearing in July to consider CNSC staff's recommendation to revoke a licence currently issued to Madawaska Mines Limited (MML) to maintain and manage the Madawaska Decommissioned Mine Site located south of Bancroft, Ontario.

MML no longer exists on the corporate record. Another company, EWL Limited (EWL), has applied for the issuance of a Waste Nuclear Substance Licence (WNSL) for the management of the Madawaska Decommissioned Mine Site for a period of ten years. This licence was issued on July 4, 2011 and will come into effect upon the revocation of the existing licence.

The Commission has determined that a public hearing is not necessary to consider CNSC staff's recommendation in this case. The hearing will be conducted by way of written submission from CNSC staff.

Following the deliberations and decision of the Commission on this matter, a *Record of Proceedings, including Reasons for Decision* will be published on the CNSC Web site and made available to the public.

CNSC staff's recommendation is not available on-line and must be requested through the Secretariat at the address below:

c/o Julie Bouchard
