

Notice of Hearing

February 22, 2012

Ref. 2012-H-104

The Canadian Nuclear Safety Commission (CNSC) will hold a hearing in February to consider Ontario Power Generation Inc.'s (OPG) application to amend the Nuclear Power Reactor Operating Licence for the Pickering Nuclear Generating Station B. The reactor is located in Pickering, Ontario.

OPG is seeking acceptance from the Commission for changes to the licence to update the full nuclear facility organizational chart, to modify the submission due date of their organizational chart and to remove references to the obsolete organizational chart.

The Commission has determined that a public hearing is not necessary to consider OPG's request in this case. The hearing will be conducted by way of written submissions from OPG and CNSC staff.

Following the deliberations and decision of the Commission on this matter, a *Record of Proceedings, including Reasons for Decision* will be published on the CNSC Web site and made available to the public.

OPG's hearing submission and CNSC staff's recommendations are not available on-line and must be requested through the Secretariat at the address below:
