# Notice of Hearing

---

March 23, 2012

Ref. 2012-H-106

The Canadian Nuclear Safety Commission (CNSC) will hold a hearing in March to consider Cameco Corporation's (Cameco) application to amend its Uranium Mine Operating Licence for the McArthur River Operation. The mine is located in northern Saskatchewan.

Cameco is requesting an amendment to its operating licence to reflect a change in the Province of Saskatchewan's surface lease agreement referenced in the CNSC licence.

The Commission has determined that a public hearing is not necessary to consider Cameco's request in this case. The hearing will be conducted by way of written submissions from Cameco and CNSC staff.

Following the deliberations and decision of the Commission on this matter, a *Record of Proceedings, including Reasons for Decision* will be published on the CNSC Web site and made available to the public.

Cameco's hearing submission and CNSC staff's recommendations are not available on-line and must be requested through the Secretariat at the address below:
