

Request for Confidentiality of Material Submitted in Relation to Renewal of Nordion Operating Licence

IMPORTANT NOTE:

The purpose of the confidentiality request process is to seek a decision from the Commission as to whether specific information being submitted for a Commission proceeding can be protected. Generally, material received as part of a matter before the Commission is made available to the public by default. The rule of confidentiality (i.e., rule 12 of the [CNSC Rules of Procedure](#)) is applied only if a request for confidentiality is submitted.

The Commission weighs any request for confidentiality against the criteria set out in rule 12 to confirm that:

- the importance of protecting the information outweighs the public interest in public hearings and disclosure of evidence; and
- the measures taken to protect confidentiality are designed to ensure that the public nature of the proceeding will be affected only to the extent necessary to adequately protect the information.

In the interest of enabling a timely decision, any request for confidentiality must be accompanied by redacted versions of all documents named in the request, and/or adequately informative summaries that can be made available to participants and the public. **Please provide the appropriate versions, as applicable.**

It is the responsibility of the requestor to provide an adequately detailed explanation as to how and why sub-rule 12(1) applies.

In the matter of:

Application to renew Nordion's operating licence NSPFOL-11A.01/2025

With regard to: Nordion's amendment to the renewal application, submitted Feb 21, 2025

I, Richard Wassenaar, am an authorized representative of Nordion (Canada) Inc.. I understand that:

- documents and information ("the material") provided to the Canadian Nuclear Safety Commission ("the Commission") as part of a public proceeding will be made publicly available unless the Commission has rendered a decision to take measures to protect it; and
- regardless of any request for confidentiality or approval of same, the material may be disclosed if the Commission is required by law to disclose it (for example, after a request under the [Access to Information Act](#)).

I hereby request that the Commission take measures to protect the following information, pursuant to rule 12 of the [Canadian Nuclear Safety Commission Rules of Procedure](#) (the Rules):

Material to be Deemed Confidential:

The material to be deemed confidential is identified in Table 1, below.

NOTE 2: Where the request for confidentiality applies only to part of the submission, the portions to be deemed confidential must be clearly identified to distinguish them from any content that is non-sensitive.

NOTE 3: The Commission is not responsible for any copyright infringement due to its publication on the public CNSC website of documents that have been submitted by a third party.

Table 1: Material to be Deemed Confidential

	Item Name	Portion(s) to be Deemed Confidential	Reason for Request (details to be provided below)
1.	CP-001, Calibration Master Plan	<input type="checkbox"/> Entire content <input checked="" type="checkbox"/> Redacted content as shown	<input type="checkbox"/> The information is a matter of national or nuclear security <input type="checkbox"/> Disclosure of the information would likely endanger the life, liberty, or security of a person or person(s) The information is of a: <input type="checkbox"/> financial nature, <input checked="" type="checkbox"/> commercial nature, <input type="checkbox"/> scientific nature, <input checked="" type="checkbox"/> technical nature, <input type="checkbox"/> personal nature, or <input checked="" type="checkbox"/> other nature (specify), security sensitive. and is consistently treated as confidential and the person affected has not consented to disclosure.
2.	SE-EHS-009, EHS Regulatory Reporting and Notifications	<input type="checkbox"/> Entire content <input checked="" type="checkbox"/> Redacted content as shown	<input type="checkbox"/> The information is a matter of national or nuclear security <input type="checkbox"/> Disclosure of the information would likely endanger the life, liberty, or security of a person or person(s) The information is of a: <input type="checkbox"/> financial nature, <input type="checkbox"/> commercial nature, <input type="checkbox"/> scientific nature, <input type="checkbox"/> technical nature, <input checked="" type="checkbox"/> personal nature, or <input type="checkbox"/> other nature (specify), and is consistently treated as confidential and the person affected has not consented to disclosure.
3.	SE-ENV-015, Nordion Environmental Protection Program	<input type="checkbox"/> Entire content <input checked="" type="checkbox"/> Redacted content as shown	<input type="checkbox"/> The information is a matter of national or nuclear security <input type="checkbox"/> Disclosure of the information would likely endanger the life, liberty, or security of a person or person(s) The information is of a: <input type="checkbox"/> financial nature, <input checked="" type="checkbox"/> commercial nature, <input type="checkbox"/> scientific nature, <input type="checkbox"/> technical nature, <input type="checkbox"/> personal nature, or

Attestation:

1. I attest that the above-noted material is not available through any public sources.
2. **MANDATORY:** I have included a **summary** or **redacted** version of the material that provides adequate detail to satisfy the public interest in public hearings and disclosure of evidence.
3. I understand that if this request is not approved by the Commission and/or no protection measures are taken, the information will be part of the public record as per rule 15 of the Rules.

4. I understand that upon receipt of this request, the Commission Registrar will treat the material that is subject to this request as confidential unless and until the Commission makes a ruling to deny this request.
