Title: Safety System Test Performance

NPP:

Unit:

Year:

Quarter:

Number of missed tests for the special safety systems a = _____

Total number of special safety system tests (SSTs) performed $a1$ = _____

Number of missed tests for the standby safety-related systems b = _____

Total number of standby safety-related systems tests performed $b1$ = _____

Number of missed tests for the safety-related process systems c = _____

Total number of safety-related process systems tests performed $c1$ = _____

Number of missed tests $(a + b + c)$ = _____

Total number of tests performed $(a1 + b1 + c1)$ = _____

Note: Some SSTs cover both standby and safety-related system testing in one safety system test. These SSTs have been included in both totals.
