Dear: Commission Secretariat

RE: Bruce Power Application for Reactor Operating License Renewal,
Your Reference 2018-H-02

I am pleased to provide this letter in regard to Bruce Power's proposal to renew its operating license for a further period of ten years. The Council of the Town of Saugeen Shores has asked me to request to appear at the Hearing this coming May as Intervenor. I believe the Commission should be apprised about the long standing close association our community has with Bruce Power. We derive many great positive impacts as a result of operations at the facility and we have every confidence that the track record of stellar safety and ongoing dialog and collaboration between the organization and our Council will continue if permission to continue their operations is obtained.

Bruce Power has proven to be very supportive of its neighbouring communities contributing more than \$1.3 million each year to worthwhile community initiatives, many of which have a safety component. The support from Bruce Power gives an important boost to local initiatives and organizations so they can continue to improve the quality of life for residents in communities like ours, and make our area one of the greatest places to live in Ontario.

I intend to provide a brief oral presentation supplemented by additional written material to the Commission outlining some of the successes achieved between the parties to date, a summary of the reasons why continued licencing is vital to Saugeen Shores and to confirm that a resolution of support for the Application was passed by our Council.

I trust the provision of the foregoing in advance of the written submission deadline is sufficient for inclusion on the hearing docket. On behalf of Saugeen Shores, I respectfully request an opportunity to intervene and to formally express our community support for this important application.

Yours truly,

Mike Smith, Mayor
Town of Saugeen Shores
