**Regulatory Oversight Report  
for Uranium Mines and Mills  
in Canada: 2018**

Ya'thi Néné Land and Resource Office  
December 12<sup>th</sup>, 2019

# Ya'thi Néné Land and Resource Office

Reviewed the Regulatory Oversight Report for 2018 from the CNSC.

Conducted engagement sessions with leadership from Uranium City, Camsell Portage, Wollaston Lake, and Stony Rapids and the Chiefs from Fond du Lac, Hatchet Lake, and Black Lake.

# Ya'thi Néné Land and Resource Office

Following the review of the document, we have three recommendations for the Commission.

**1.** Provide more than a 30-day period for the submission review to allow for enhanced engagement with community members.

# Recommendations

**2.** In accordance with REGDOC-3.2.1 and the encouragement of updating communication procedures, Ya'thi Néné strongly recommends that the licensed facilities implement a new reporting procedure for contacting the seven Athabasca Basin leaders and the Ya'thi Néné Executive Director to any incident classified as 'Medium' or 'High' through email.

# Recommendations

**3.** Add Community Comprehension as the fifteenth Safety and Control Area to ensure that communities impacted through the mining industry are updated and informed on the areas of environmental protection concerning the use of the land and health and safety.

# Closing Remarks

Ya'thi Néné appreciates the opportunity to participate.

Communication between the CNSC, Cameco, Orano and Ya'thi Néné has been prompt and professional.

# Closing Remarks

Ya'thi Néné looks forward to:

Assist with the implementation of these recommendations.

Continue the dialogue to improve the regulatory documents that licensees and licensed facilities abide by.
