Mr. M. Leblanc  
Commission Secretary  
Canadian Nuclear Safety Commission  
P.O. Box 1046  
280 Slater Street  
Ottawa, Ontario  
K1P 5S9

Dear Mr. Leblanc:

Request for short-term extensions to all  
Personnel Certifications for the Bruce Nuclear Generating Station A expiring in 2020

The purpose of this letter is to request, pursuant to Section 7 of the *Nuclear Safety Control Act* and Section 11 of the *General Nuclear Safety Control Regulations*, an exemption from Section 9 (3) (c) and 9 (4) of the *Class I Nuclear Facilities Regulations* to allow short term renewals to all Personnel Certifications at Bruce Nuclear Generating Station A, which expire in 2020. Due to the COVID-19 pandemic and the impacts of the compensatory actions Bruce Power has undertaken, to secure the reliable and safe operation of its nuclear facility, the normal Certification Requalification Testing regimen has been postponed putting personnel certifications in jeopardy of expiring due to an inability to carry out requalification requirements at this time.

Attachment A outlines the actions Bruce Power has implemented in response to the COVID-19 crisis and the associated federal, provincial and municipal Declarations of Emergency as well as the impacts of this response on the Certification Requalification Testing regimen. Bruce Power requests that staff identified in Attachment A be granted six month short term extensions to their certifications in order to maintain adequate numbers of certified staff for minimum complement requirements during this time of crisis in Canada and the World.

If you require further information or have any questions regarding this submission, please contact Jason Stevenson, Section Manager, Certification Testing & Examinations at (519)-361-2673 extension 12803, or [jason.stevenson@brucepower.com](mailto:jason.stevenson@brucepower.com).

Yours truly,

A handwritten signature in black ink, appearing to read 'MB', written over a light blue horizontal line.
