Re: BWXT Medical Ltd. Application for a Class IB Licence (June 9-10 Public Hearing)

Dear President and Commission Members,

Please accept this letter in strong support of the Application for a Class IB License submitted by BWXT Medical Ltd.

TRIUMF Innovations is the commercialization arm for TRIUMF, Canada's particle accelerator centre located in Vancouver, Canada. TRIUMF advances isotope science and technology, both fundamental and applied. We collaborate across communities and disciplines, from nuclear and particle physics to the life and material sciences.

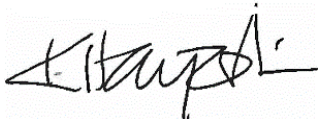

TRIUMF been producing medical isotopes for over 40 years and BWXT Medical Ltd. is the key commercialization partner to deliver isotopes to radiopharmaceutical companies, hospitals, radiopharmacies, and ultimately, to the patients who need them.

TRIUMF works in partnership with BWXT Medical Ltd. to produce and supply critical medical isotopes for research, diagnostic and therapeutic use. Medical isotopes produced on the TRIUMF site are processed and shipped to help patients and researchers in Canada and around the world.

TRIUMF has been working closely and successfully with the highly qualified BWXT Medical Ltd. team since the 2018 acquisition and looks forward to working with BWXT Medical Ltd. to expand our joint product development initiatives to provide health and hope for patients in Canada and other parts of the globe.

As part of this effort, TRIUMF Innovations strongly supports BWXT Medical Ltd.'s application for a 10-year Class IB license. This will position us to work together to be a reliable supplier of medical isotopes, strengthening and securing Canada's medical isotope supply chain.

Sincerely,

Kathryn Hayashi
President and CEO
TRIUMF Innovations Inc.
