Dear President and Commission Members

Hello, my name is Kris Olsen,

This letter is written for the license renewal for Cameco`s Blind River refinery.

I have been at Cameco Corporation for the past 18 years. I am a production trainer, I have held several positions including process operator and process supervisor for 8 years.

Cameco has been a great company to work for. They(we) are very conscious about safety and the environment due to the fact that it is a small town and we all grew up together. Most of us are avid outdoorsmen/women so ensuring our local wild life is safe for us and our kids is very important to all of us.

Cameco is one of the largest employers along the north shore, it would be a great loss if our license was not able to be renewed. I feel with our safety record and environmental track record there would be no valid reason to reject our renewal. I would hope our continued hard work would be seen as an example to other industries and even other Cameco sites. We have set the bar high and intend to keep it there.

Cameco has been a big supporter of the community, schools and hospitals in this area. There has been a lot of pride from the employee group seeing this support. It means a lot to everyone here when we see our company is helping so many good causes.

I am not able to capture everything positive about this company in a short letter, however I hope my voice is heard in the evaluation of this license renewal.

Thanks

Kris Olsen
