Re: Cameco's licence renewal application for the Blind River Refinery (Nov24-25, 2021 Hearing)

Dear President and Commission Members,

My name is Trevor Funk, I am a machinist at the Blind River Refinery. The Blind River Refinery is a great place to work and provide a comfortable life for my family. The renewal request is important to me so I am able to continue providing for my loved ones. Cameco is absolutely amazing when it comes to safety and environmental performance and have complete confidence we are continually improving on excellence. Cameco is very involved in our community and are very fortunate to have such a community minded company in our town.

I believe Cameco BRR should be granted a 10 year licence renewal so we can safely continue our roll in the nuclear fuel cycle. Cameco has a very positive impact on our community, and my home. I am very proud to be employed by this great company.

Trevor Funk
