Attention: Canadian Nuclear Safety Commission (CNSC)

RE: Intervention Request to Support the Cameco Blind River Refinery Application to CNSC to Renew its Current Operating License FFOL-3632.00/2022 for a 10-year Operating Period.

The Blind River Curling Club (BRCC) is a not-for-profit corporation and stakeholder who wishes to provide comments to the Commission to aid in their decision to renew the current operating license for the Cameco Blind River Refinery.

The BRCC considers the Cameco Blind River Refinery a responsible member of our community. Cameco supports our local economy via job creation. We are proud that we have the world's largest commercial uranium refinery that promotes clean-air energy located in Blind River.

The Refinery has demonstrated superior environmental performance, safety performance for its employees and area communities. Cameco has invested in our area communities that has enhanced the lives of our communities for almost 40 years. The BRCC has benefited from Cameco's financial support and their employee's ongoing volunteer efforts to sustain the sport of curling in our area by sponsoring events and specifically our youth programs.

The BRCC strongly supports the license renewal for the Cameco Blind River Refinery.

Yours truly,

Jerry Jensen, President

Blind River Curling Club
