Dear President and Commission members,

My name is Danny Bacon, born and raised in the small community of Spanish, Ontario. Which I still currently live in.

I am an electrician at the Cameco Blind River Refinery and have been a full-time employee for over a year now. I spent many years waiting to join Cameco as it has a great reputation for having a great safety system and procedures having just celebrated 15 years with no LTI, great benefits and strong ties to Blind River and the surrounding communities.

I am strongly in favor of Cameco receiving its license renewal, it has and will continue to bring a strong safety culture, and better understanding on the process of clean energy with financial stability to the surrounding areas.

Thank you.
