Subject: Blind River renewal application

Good morning , my name is lee Hannon

I have been living here in blind river since 2016 . I've been with cameco at the blind river refinery since 2019. I started out as a sample and feed operator and now for the past 2 years a process operator. Following the guidelines and going above for the safety of our coworkers , plant , environment to assure the future of our plant and community and cameco . I'm proud to work here at blind river refinery and to be a part of our 15 year Lta , and to set that plants goal higher each year. Before cameco I have been apart of our volunteer fire hall and learned cpr and ert. Moving to blind river and working for cameco has kept me refreshed on cpr and ert training. With the cpr training I've received from cameco has been vital in my own home on multiple occasions .

Cameco goes above and beyond,making sure their workers go home safe and heathy with training , body scanners, lung counts to name a few. I knowhere at the bind river refinery we will keep exceeding our goals with lta's, heath of the employees, smoothoperations, our environment, to have a long lasting career here with cameco.

Cameco has been a huge supporter ofthe blind river community, creating jobs in our town has very much kept our town alive. They do more by putting oncommunity days which help's in making our town welcome to visitors and the enjoyments for our kids with, outdoorinks , ski club is only a few mentioned. The renewal of Blind River refinery plays a huge part of our town and thepeople working for / with cameco.

Thank you for your time.

Best regards,

Lee Hannon
