RE: Cameco Fuel Manufacturing's license renewal
Application (Nov 23-24, 2022 Hearing)

Dear President and Commission Members,

I am Donald Slade; I have been employed by Cameco Fuel Manufacturing for the past 21 years.

Of those 21 years I have been an active member of the Joint Health and Safety Committee and I am the current Co Chair in the Cobourg Plant at CFM operation. I am writing in support of CFM's 20-year license renewal request.

CFM has a very strong health and safety culture, and I am proud to be a part of this culture.

Like our Sign says, "There is No Job So Important That We Can't Take the Time to Do It Properly". We live by this on a daily basis and take safety very seriously.

I believe that the license renewal is very important to our community, our province and to Canada as a whole. We need clean energy and CFM can supply that energy for years to come, safely and cost effectively. I Live in this community and have full trust in Cameco's Safety record at all its sites in the area.

CFM is a strong community supporter, from the United Way, local community activities, even pledging support for Mental Health, the list is long.

Thank You for your time,

Donald Slade USW 14193
