Please consider this email my written intervention to the Canadian Nuclear Safety Commission, regarding the licence renewal of the NB Power Point Lepreau Nuclear Generating Station.

I am a parent concerned about radioactive emissions in the event of an accident

I reside not more than 250Km across the bay and I am not impressed with this at all Deny this please. This could be potentially very dangerous in the event of an accident, which could arise from any number of scenarios!

please acknowledge receipt of this email
