**Subject:** Intervention PLNGS Hearing Ref. 2022-H-02

Good day,

Please consider this email my written intervention to the Canadian Nuclear Safety Commission, regarding the licence renewal of the NB Power Point Lepreau Nuclear Generating Station.

I am a parent concerned about radioactive emissions in the event of an accident, leaving my child with legacy radioactive waste

Our future will be directly impacted by choosing nuclear over renewables.

I am a member of the public concerned about the health of our environment and communities

Nuclear energy may seem cost efficient, but when disaster strikes, the consequences affect generations to come. It is just not worth it.

please acknowledge receipt of this email

thank you in advance for your thoughtful consideration.

Anne-Marie Séguin  
Hopewell Hill, NB
