Please consider this email my written intervention to the Canadian Nuclear Safety Commission, regarding the licence renewal of the NB Power Point Lepreau Nuclear Generating Station.

As a mother of two young children I'm extremely concerned about the many risks of nuclear power as we have seen in the past, and my kids not having any say for 25 years is not fair. We have many other options for renewable energy and Nuclear is not the right choice, If we are going to invest in to energy, please consider a cleaner choice for future generations.

Please acknowledge receipt of this email,

Sincerely

Sarah Boyer and the Boyer family.
