Dear Sirs,

Please consider this email my written intervention to the Canadian Nuclear Safety Commission, regarding the licence renewal of the NB Power Point Lepreau Nuclear Generating Station.

I am a member of the public concerned about nuclear and how climate change may impact the facility along with the security risks to our province and country. The war in Ukraine has showed us clearly how both sides use nuclear energy for propaganda and the serious risks to lives and stability of a region. We must learn from this or all the lives lost were in vain. We must find another way, we have wasted enough time, the alternate means are available. Be progressive and move forward not backwards.

Thank you for your time and I would appreciate it if you would acknowledge receipt of this email.

HELEN CHENELL  
Riverview, NB
