Subject: PLNGS Hearing Ref. 2022-H-02

Hello,

I'm not a professional in any capacity so I don't have anything fancy or in depth to say. But I do OPPOSE a nuclear plant being in use and built in the bay of Fundy. I don't think Canada should as a a major natural resource country, start popping up potential serious contamination risk nuclear plants. Also. I have two very young boys and we live in Shubenacadie NS. The bay of Fundy is way to close for me to be happy about this. Nuclear anything is a high risk with a high potential for catastrophe and sabotage. With the world run by nut jobs, I don't trust such huge risks to be handled safely. Please do NOT instal a nuclear plant. For my babies future.

Regards,

Hayley Clarke
