Please consider this email my written intervention to the Canadian Nuclear Safety Commission, regarding the licence renewal of the NB Power Point Lepreau Nuclear Generating Station.

We may decide in 5 years that we can start to shut down the Point Lepreau plant because we don't need it any more! But we need to be given that chance. A 25-year licence will take away that chance and that is not a reasonable option.

Also I am an older person whose experience and judgement cannot be contributed ever again if the next hearing is in 2047
