**Re: SRB Technologies (Canada) Inc.'s application for a 15-year renewal of its Nuclear Substance Processing Facility Operating Licence**

To Whom It May Concern:

I write today in support of the application referenced above submitted by SRB Technologies to the Canadian Nuclear Safety Commission.

Over the last seventeen years, I have had many opportunities to meet with Mr. Levesque regarding the operation of SRB Technologies and have toured the facility located in my riding in the City of Pembroke. In my dealings with Mr. Levesque and his staff, I have found them to be very professional and committed to ensuring the safety and well-being of our community.

In conclusion, I thank the Commission for its consideration of SRBT's request for a 15-year licence term and look forward to a positive outcome from their application. Please do not hesitate to contact me directly if you would like further input.

Sincerely,

A handwritten signature in blue ink, appearing to read "John Yakabuski", with a large, stylized initial "J" and a flourish at the end.

John Yakabuski, M.P.P.
