To Whom it May Concern:

Re: SRB Technologies (Canada) Inc. application to renew for a period of 15 years, its nuclear substance processing facility operating licence for its facility located in Pembroke, ON

I am writing in support of SRB Technologies' application to renew its operating license for its facility located in our city.

I have had the opportunity to meet with Mr. Levesque regarding the operation of SRB Technologies and have toured the facility. I know SRB is committed to ensuring the safety and well-being of our community.

Mr. Levesque and members of his staff continue to appear before Pembroke City Council reporting on the company's operation and status in a very transparent manner. It is my belief that the majority of our residents support the presence of SRB Technologies in our community.

Please do not hesitate to contact me should you have any questions. I look forward to a positive outcome of your deliberation.

Yours truly,

Michael LeMay
Mayor, City of Pembroke

Email: interventions@cnsccsn.gc.ca

Dear Ms. Levert:

RE: SRB Technologies (Canada) Inc. – Renewal Application

As the Manager of Planning and Building for the City of Pembroke, I support SRB Technologies request for a 15-year license. I have had many dealings with Mr. Stephane Levesque of SRB Technologies. Mr. Levesque has always been very cooperative and efficient. As an example, Mr. Levesque arranged for soil sampling to take place in the adjacent TransCan Corporate Industrial Park so that land could be sold for development. This soil sampling was done in a very timely manner.

I have also worked with the staff of SRB Technologies in my capacity as Community Emergency Management Coordinator (CEMC) for the City of Pembroke. Staff has worked diligently and efficiently with the City's Emergency Management Committee to provide a Safety Analysis Report for SRB Technologies. This report has been added as an annex to the City of Pembroke's Emergency Plan.

As CEMC for the City of Pembroke I have participated in the SRB Technologies emergency exercise which was held on Tuesday October 26, 2021. The exercise was extremely well run and was a positive learning experience for all participants.

In closing I would like to indicate that the City of Pembroke has a very good working relationship with the staff at SRB Technologies.

Sincerely

Colleen Sauriol, MCIP, RPP
Director
Planning, Building and By-law Enforcement

To Whom It May Concern:

In my capacity as the Deputy Mayor for the City of Pembroke (a position I have held since 2010) and as the appointed member to the Canadian Nuclear Laboratories Environmental Stewardship Council (CNLESC), I wish to provide this letter in support of SRB Technologies (Canada) Inc.'s application presently before the CNSC for a 15-year license.

SRB Technologies (Canada) Inc. (SRB Technologies) is an exemplary corporate citizen of the City of Pembroke. The principals of this company have made every effort to engage and educate the public. Having toured the Pembroke facility on more than one occasion, I am very pleased with the professional and knowledgeable employees of SRB Technologies. I am confident that the majority of the citizens of the City of Pembroke have little safety concerns arising from the operation of SRB Technologies and are most certainly in favour of the application made by it.

Should you have any questions, please do not hesitate to contact the undersigned to discuss same.

Sincerely,

Ron Gervais
Deputy Mayor
City of Pembroke

To Whom It May Concern:

This letter is written in support of the fifteen-year license application currently before the CNSC regarding SRB Technologies (Canada) Inc.

As the City of Pembroke's Chief Administrative Officer, I can freely attest to the proactive, open, and transparent way in which this company interacts with the community and specifically the City's administration. The principals of the company reside locally and are known in the community.

The business actively reaches out to the community and make presentations on its operations before Council and the community at large through the presence of the media on an annual basis.

I personally have toured the company's local facility on more than one occasion and have been impressed with the knowledge of the staff and the way in which they take their responsibility to the environment and continuous improvement so seriously.

The company works closely in a cooperative, positive fashion with the municipality's various departments including civic administration, fire, public works including water and sewer sections, planning, and building as well as emergency preparedness.

Sincerely,

Terry Lapierre, CMO, CMMIII, Ec.D
Chief Administrative Officer
