# CRDN's Recommendations

- Establish a formal consultation process between CRDN and the Government of Saskatchewan to address concerns
- Establish a comprehensive public awareness campaign and trust-building programs in collaboration with CRDN
- Establish programs to support renewal of traditional harvesting in mine area
- Establish a CRDN monitoring program
  - CRDN's traditional knowledge must be considered and help shape monitoring programs and any public awareness programs
  - CRDN and other local Indigenous communities must be involved in the on-going monitoring of the site
- CNSC should engage CRDN in design of conditions for future projects to avoid repeating history
