Why MSIFN is in Attendance

To Ensure meaningful consultation

To participate in the decision-making process

To mitigate impacts on the community

To ensure impacts to the environment and the health of our members are limited to the extent possible

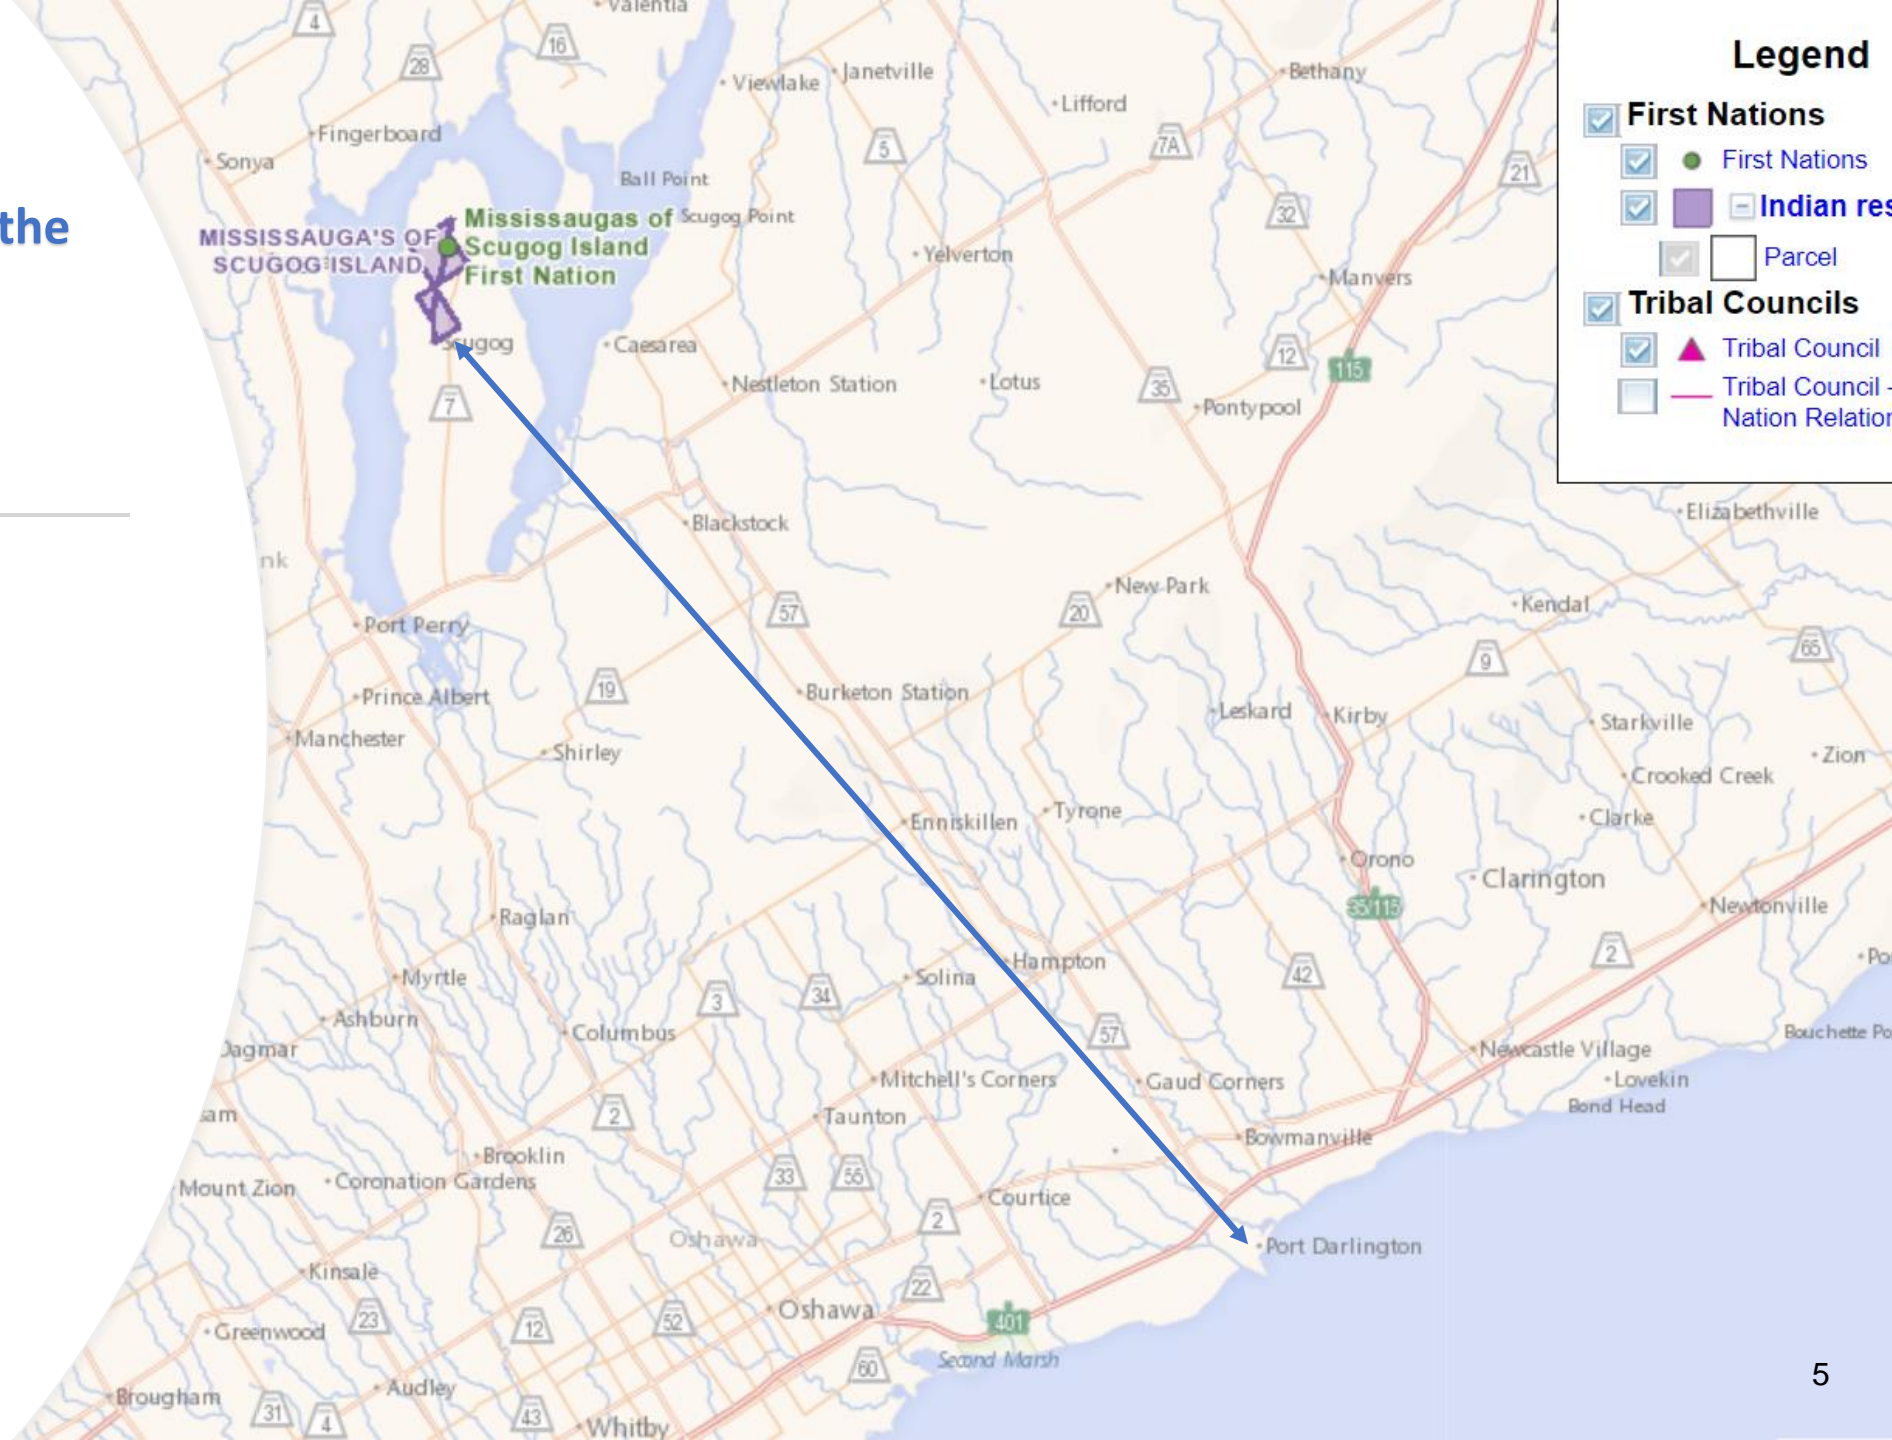

To provide conditions of approval for MSIFN's consent for continued operations on the Darlington Waste Management Facility

MSIFN is within 40 km of the Darlington Waste Management Facility

MSIFN would receive
Potassium iodide should
a nuclear event occur.

There is no long-term
storage plan for nuclear
waste.

Our community has
history of practicing
harvesting rights and
recreational activities in
Darlington.

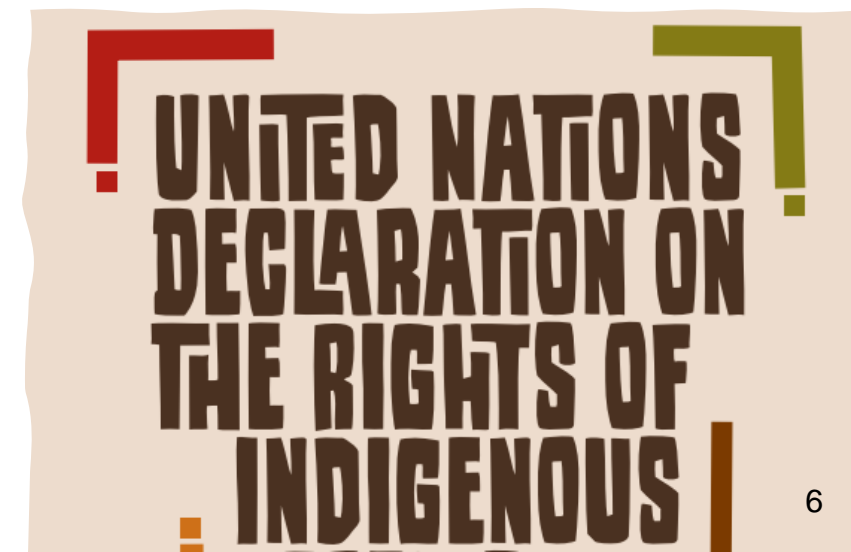

Importance of Consent

MSIFN is seeking a **consent-based approach**

The Crown to obtain the free, prior and informed consent (FPIC) of First Nations for all Crown decisions related to nuclear facilities

Article 32(2) of UNDRIP states that “the Crown shall consult and cooperate with Indigenous Peoples to obtain FPIC prior to approval of any project affecting our lands and territories particularly in connection with development of resources”

Conditions

Consent: OPG to secure MSIFN's consent for the DWMF before proceeding with project activities

Collaborative planning process: Related to safety, current and future site plans, and on-site environmental restoration.

OPG Offsite Restoration Fund: Restoration of shorelines along Lake Ontario

OPG – MSIFN Collaboration to Review International Best Practices: For the management and storage of used nuclear fuel with DWMF's practices

Miigwech

For your time and for listening to our concerns, and requirements for consent
