Mémoire d’Ingrid Alesich

In the Matter of the

À l’égard d’

Ontario Power Generation Inc.

Ontario Power Generation Inc.

Application for a licence to construct one BWRX-300 reactor at the Darlington New Nuclear Project Site (DNNP)

Demande visant à construire 1 réacteur BWRX-300 sur le site du projet de nouvelle centrale nucléaire de Darlington (PNCND)

**Commission Public Hearing
Part-2**

**Audience publique de la Commission
Partie-2**

January 2025

Janvier 2025

The money spent on all this high tech, dangerous technology for which you have NO SAFE PLACE TO STORE HIGHLY RADIOACTIVE WASTES FOR MILLIONS OF YEARS, could be spent to build renewable energy infrastructures, that would be ready to come on stream within just 3 years.

You insist on your ridiculous, big business corrupt, plans and put communities at risk.

Sincerely,

Ingrid Alesich

Regina.
