Subject: GEH Correspondence in Support of the Ontario Power Generation Inc. (OPG)
Request for Confidentiality in 24-H3 — Ontario Power Generation's
Application for a Licence to Construct a BWRX-300 Reactor at the Darlington
New Nuclear Project

Dear Ms. Salmon:

GEH SMR Technologies Canada, Ltd. (GEH SMR Canada) and GE-Hitachi Nuclear Energy Americas, LLC (GEH-A), together referred to as "GEH", provide this letter in support of the letter from Ontario Power Generation Inc. (OPG) to the Canadian nuclear Safety Commission (CNSC), dated November 18, 2024, in which OPG provided further justification regarding OPG's request for Confidentiality [R-1] for identified documents by the CNSC [R-2].

GEH provides this letter to advise the CNSC that some of the documents in OPG's Request for Confidentiality [R-1] may contain export-controlled information, which is highly confidential and proprietary to GEH.

Should you have any questions, please contact Suzanne Karkour at suzanne.karkour@ge.com (289-385-193) or Sean Sexstone at sean.sexstone@ge.com (910-200-4976).

Sincerely,

Suzanne Karkour
