RE: OPG Application to Extend Pickering Nuclear's Units 5 to 8 until the end of 2026

Canadian Nuclear Safety Commission (CNSC)

To whom this may concern,

I am writing to advocate on behalf of Gurley Leadership Solutions in full support of Ontario Power Generation's (OPG) application to extend the operating license of Pickering Nuclear's Units 5 to 8 until the end of 2026.

For the province of Ontario, the Pickering Nuclear plant serves as a crucial provider of clean, safe, reliable, and cost-effective electricity. We firmly believe that OPG is committed to maintaining public safety as its utmost priority and will uphold the highest standards of safety in plant operations.

OPG has consistently demonstrated its dedication to open and transparent communication with local businesses and the wider community. We trust that OPG has implemented the necessary measures to ensure the continued safe and reliable operation of the plant for an additional two years.

As a long-time resident of Ajax and a business owner deeply rooted in the community for over 35 years, I have full confidence in the proximity of operating alongside the Pickering Nuclear facility. I wholeheartedly support the extension of the operation of units 5 to 8 to meet Ontario's energy demands.

Thank you for considering our advocacy on this matter.

Sincerely,

A handwritten signature in blue ink, appearing to read "Malcolm Gurley". The signature is fluid and cursive, with a long horizontal stroke at the end.

Malcolm Gurley
President, Gurley Leadership Solutions
