Re: Ontario Power Generation
Pickering Nuclear License Renewal

To Whom it May Concern,

On behalf of the Ajax and Pickering Rotary Clubs, we wish to offer our support for the above. The facility is essential to the province and our local community.

Rotarians know who is involved in supporting our community and it is OPG Pickering. We see the many initiatives they take at all levels such as our environment. They are a leader in our community. So much so that Ajax/Pickering Rotary has honored them formally for their contributions.

Without their support, our biggest fundraiser of the year would not have happened. The fact it did, allows us to support the hospital, youth at risk, homeless, DEI initiatives and much more. Their support has had a huge multiplier effect in a positive way.

Rotarians live in this community and the Pickering facility has operated in a clean and safe manner. Pickering is helping to power the province and our local communities. We are proud to have them here and cannot thank them enough for all that they do!

Your truly,
