EXTERNAL EMAIL – USE CAUTION / COURRIEL EXTERNE – FAITES PREUVE DE PRUDENCE

The application to extend the operation of Pickering Nuclear Generation Station Units 5 to 8 until December 31, 2026 should be denied. I strongly disagree with this proposed extension as there is no effective way of storing nuclear waste and the Pickering Nuclear Generation Station Units 5 to 8 are located close to high population density areas. It is too risky to Ontarians and to the environment to continue to operate these units.

I urge you not to authorize this dangerous, risky application. I look forward to hearing your denial of this application.

Best regards,
Janet Graham
