**Greater Saskatoon Chamber of Commerce Written Intervention –
NexGen Energy Ltd. Rook I Project**

The Greater Saskatoon Chamber of Commerce is Saskatoon's voice for business and Saskatchewan's largest chamber organization. We proudly represent 1,500 companies and community-based organizations with important ties to Canada's mining and mineral exploration sector as operators, suppliers and partners. Our members share the sector's deep commitment to safe and sustainable development for the socio-economic benefit of communities across Saskatchewan.

We are pleased to add our voice in support of NexGen Energy's Rook I Project and urge the Commission to approve NexGen's Application for a Licence to Prepare a Site for and Construct a Uranium Mine and Mill.

NexGen has undertaken extensive exploration, geotechnical, environmental, and community studies to design a project that safeguards the environment while delivering lasting economic and social benefits.

The Rook I Project exemplifies NexGen's strong commitment to environmental stewardship, social responsibility, and the cultivation of respectful, mutually beneficial relationships with Indigenous and local communities, as evidenced by the Company entering into Benefit Agreements with all four Local Priority Area Communities encompassing all phases of the Project.

Furthermore, NexGen's commitment to strengthening communities extends well beyond the Local Priority Area, through sustained support for Saskatoon-based businesses, non-profit organizations, sports organizations, and industry partners.

When it comes to safety, environmental protection, and community collaboration, NexGen Energy is a model company.

For these reasons, we are proud to count NexGen among leading businesses in our Chamber network.

Sincerely,

Jason Aebig, CEO
Greater Saskatoon Chamber of Commerce
