**RE: Letter of Support – Darlington Nuclear Generating Station Operating License Renewal**

Dear Members of the Canadian Nuclear Safety Commission: On behalf of our members and Board of Directors

On behalf of the Greater Oshawa Chamber of Commerce Board of Directors, I am writing to express our strong support for the renewal of the operating license for Ontario Power Generation's (OPG) Darlington Nuclear Generating Station, located in the Municipality of Clarington within Durham Region. Darlington Nuclear Generating Station has been a cornerstone of our community and province, safely and reliably generating clean electricity for decades. The station is globally recognized as one of the top-performing nuclear power plants. It plays a critical role in supplying over 20% of Ontario's electricity, enough to power approximately 2 million homes.

The facility employs over 2,000 skilled professionals, the vast majority of whom live and work within Durham Region. These are not just jobs—they represent families, economic stability, and community growth. OPG's investment in local economies extends beyond employment. The organization is committed to maintaining a sophisticated and modern energy fleet and invests millions of dollars annually in the region.

OPG stands out not only as Ontario's largest electricity generator but also as one of North America's most diverse power producers. Its operations are rooted in values of safety, environmental responsibility, and community engagement. Nuclear power is vital to meeting Ontario's growing electricity demands in a reliable, cost-effective way, and free of greenhouse gas and carbon emissions.

Moreover, OPG is an exemplary corporate citizen. Through initiatives like the Power for Change Project—its community investment program—OPG has supported over 100 local organizations throughout Durham Region. The company partners actively with environmental, local, and Indigenous groups to ensure community well-being is always prioritized.

21 Simcoe St. S., Suite 101, Oshawa, ON L1H 4G1 905 728-1683 [www.OshawaChamber.com](http://www.OshawaChamber.com)

Darlington Nuclear Generating Station is not just a source of electricity but a pillar of our economic, environmental, and social infrastructure. The Greater Oshawa Chamber of Commerce strongly supports the renewal of its operating license and urges the Canadian Nuclear Safety Commission to continue enabling OPG to provide safe, clean, and dependable power to the people of Ontario.

Sincerely,

  
**Jason King**  
CEO
