Ms. CANDACE SALMON

Commission Registrar,
Canadian Nuclear Safety Commission
P.O. Box 1046
280 Slater Street
Ottawa, Ontario, K1P 5S9

Dear Ms. Salmon:

OPG - Request for Administrative Amendment to Update OPG Licences to Reflect the New Headquarters Address

The purpose of this letter is to request an administrative amendment to update the licensee address of OPG licences to reflect OPG's new headquarters, 1908 Colonel Sam Drive Oshawa, Ontario L1H 8P7. This request is in accordance with Section 6 of the *General Nuclear Safety and Control Regulations*.

Attachment 1 provides a list of all active OPG licences which require an amendment to update the address to the new corporate headquarters. The affected licences include OPG's Power Reactor and Waste Facility Operating licences, Waste Nuclear Substance Licence, Nuclear Substances and Radiation Devices Licences, Dosimetry Services Licence, and Import/Export Licences for controlled nuclear substances, equipment and information.

No changes are proposed to the authorized activities, organizational structure for the control of licensed activities, or to the safety and control measures that form the licensing basis (including the LCHs, where applicable).

OPG requests the CNSC process this as an administrative amendment to update the licensee address across the listed licences in Attachment 1 within 30 days after receipt of this letter. All future requests for new licences or renewals of existing licences will, where applicable, reflect OPG's new headquarters address.

Ms. Ms. Salmon

OPG Proprietary
