EXTERNAL EMAIL – USE CAUTION / COURRIEL EXTERNE – FAITES PREUVE DE PRUDENCE

---

Dear Commission:

Best Theratronics has made significant progress in reducing its inventory of sealed radioactive sources, but it would not be able to meet the Commission ordered deadline for inventory reduction and financial guarantee. Best Theratronics requests that the Commission grant it an extension of the deadline for inventory reduction to May 31, 2026.

Thank You

Mark Xu

Hi there,

Please see below for BTL's explanation. It only contains information that can be publicly disclosed.

"To date Best Theratronics Ltd has shipped the majority of its material in 4 separate shipments.

The remaining material is in individual biological shields that need to be packed in licensed transport containers. We have a limited inventory of these containers and that limits us to one truckload at a time. The containers need to be unloaded at destination and shipped back empty which will take approximately 2 weeks/ shipment. That is the reason we requested an extension to May 31, 2026 to complete these trips."

Thank You  
Mark Xu
