Re: Cameco's licence renewal application for the Port Hope Conversion Facility (Nov 3-5, 2026 Hearing)

Dear President and Commission Members,

My name is Ian McKelvey, and I am an employee at Cameco's Port Hope Conversion Facility. I have been happily employed as Security Guard, Fire Systems Inspector and Emergency Response Team member at the facility for the past 17 years.

During my time at Cameco, I have developed strong connections to my coworkers, contractors, visitors and the community. I take pride in the work we do and in the people I have had the opportunity to work alongside over the years.

Cameco plays an important role in the community, not only as Northumberland County's largest employer but through the support of local organizations, initiatives and community programs.

I am writing in support of Cameco's application to renew the Port Hope Conversion Facility's operating license for 20 years.

I have witnessed how Cameco's belief in Health and Safety is paramount. I have spent several years on the Health and Safety committee working with the union and management to make continuous improvements for safety of the employees and environment.

For these reasons, I support Cameco's request for a 20-year license renewal for the Port Hope Conversion Facility.

Sincerely,
Ian McKelvey
