Ottawa, Ontario, K1P 5S9

Dear Ms. Salmon:

CNSC Procedural Direction DIR 26-H7: Submission further to the Pickering NGS Licence Application following the Public Hearings

The purpose of this letter is to respond to the CNSC Procedural Direction in Reference 1. In this Directive, the CNSC defined an additional filing period for Pickering NGS's licence renewal application after the Public Hearings.

As per Section 3 of Reference 1, OPG has reviewed the documents listed in paragraph 5 and has nothing further to add to the record.

Regarding paragraph 6 of Reference 1, OPG reaffirms its commitment, as stated during the Part 2 Public Hearing, to place the Deep Water Intake (DWI) in service within the proposed 10-year licence period, as early as technically possible and while executing the work safely.

Regarding paragraph 7 of Reference 1, OPG agrees in principle to the statement made by Michi Saagiig Anishinaabeg of the Williams Treaties First Nations. OPG's perspective is that it is more appropriate to be included in the Licence Conditions Handbook.

Should there be any questions, please contact Ms. Aditi Bhardwaj, Senior Manager, Regulatory Affairs, aditi.bhardwaj@opg.com

Luca Ceccato
Senior Vice President
Pickering Projects
Ontario Power Generation Inc.
