Subject: RE: [CNSC-Watch] August 1st deadline - TODAY - to give feedback to CNSC on industry (and other) comments on REGDOC-2.11.1, Waste Management, Volume I: Management of Radioactive Waste

Dear CNSC cncsc.consultation.ccsn@canada.ca

I fully support and endorse the Northwatch submission on this Waste Management of Radioactive Waste matter

Please accept my endorsement of that submission and please confirm receipt of this message of support.

Thank you for your attention

Sincerely

Dorothy Goldin Rosenberg MES, PhD

Feedback on REGDOC-2.11.1, Waste Management, Volume I: Management of Radioactive Waste Thursday, August 1

Description: Invitation to provide feedback on comments on the REGDOC is open until August 1, 2019. It is all at

<http://nuclearsafety.gc.ca/eng/acts-and-regulations/regulatory-documents/history/regdoc2-11-1-v1.cfm>

REGDOC-2.11.1, Waste Management, Volume I: Management of Radioactive Waste is for CNSC-licensed facilities and activities that are required to have a waste management program. The purpose of this document is to provide requirements and guidance:

- on radioactive waste management applicable to different types of CNSC licensees
- related to CSA Group standards applicable to radioactive waste management
- supplemental to specific topics in radioactive waste management standards

Several industry submissions use the same table of comments; see OPG's, for example, at

<http://www.nuclearsafety.gc.ca/eng/pdfs/REGDOC-comments-received/Comments-REGDOC-2-11-1-v1-OPG.pdf>

Comments were made on the draft RegDoc by the following:

- [Bruce Power](#)
- [Cameco](#)
- [Canadian Nuclear Association](#)
- [Canadian Nuclear Laboratories](#)
- [Dr. Sandy Greer](#)
- [Dr. Albert Lee](#)

- [Lloyd's Register Consulting](#)
- [Ministère de la Santé et des Services Sociaux](#) (in French only)
- [New Brunswick Power](#)
- [Northwatch](#)
- [Nuclear Waste Management Organization](#)
- [Ontario Power Generation](#)

If you only have a small amount of time, comment on the OPG submission as representative of the nuclear industry, and focus in on just one or two points. Alternatively, you can send a comment saying that you support the earlier submission by Northwatch.

Comments go to:
