Subject: OPG Pickering 5 - Summary decision

Bonjour,

The Commission has approved the restart of OPG Pickering Unit 5, effective immediately. The Commission has determined that Pickering Unit 5 has satisfied the terms of the DO Order and that, consequently, Unit 5 is no longer subject to the DO Order. A record of decision, including reasons for decision, will follow.

The Commission wishes to extend its appreciation to the participants for an efficient and productive approval process, recognizing that it was an accelerated and intensive process. The Commission will now focus on the remaining outstanding requests.

Regards,

Marc Leblanc
