Canadian Nuclear Safety Commission

Dear Sir/Madam:

Re: Letter of Support for CNL application for license renewal at Chalk River Laboratories.

Please accept this letter of support for the 10 year license renewal application coming forth from CNL (Chalk River Laboratories). CNL is a major workplace supporter of United Way Renfrew County which means they are an important partner in our community as dollars raised assist us in funding necessary community programs. They also contribute to the economic well-being of many in our community who depend on them for employment and securing for their families.

The staff and management have been engaged with our organization for many years and we wish them nothing but success with this renewal application.

If you wish to confirm our support, please do not hesitate to contact me.

Sincerely,

Patricia Lafreniere,

Regional Director

224 Pembroke Street West

Pembroke, ON | K8A 5N2
