# *Notice of Hearing*

---

June 20, 2017

Ref. 2017-H-103

The Canadian Nuclear Safety Commission (CNSC) will hold a hearing in the next few weeks to consider Best Theratronics Ltd. (BTL) proposed revised financial guarantee for the decommissioning of its facility. Pursuant to section 25 of the *Nuclear Safety and Control Act* and in accordance with the *Canadian Nuclear Safety Commission Rules of Procedure*, CNSC staff recommends that the Commission, on its own motion, amend licence condition 1.3 of BTL's operating licence, to change the deadline to have a financial guarantee for decommissioning in place. CNSC staff also recommends that the Commission approve BTL's proposed financial guarantee.

The Commission will consider CNSC staff's written submission on this matter. BTL was provided with an opportunity to be heard on this proposed licence amendment, but has informed the Commission that it did not wish to take advantage of this opportunity.

Following the deliberations and decision of the Commission on this matter, a record of decision will be published on the CNSC website and made available to the public on request.
