

Revised Notice of Hearing

June 27, 2016

Ref. 2016-H-107
Revision 1

The Canadian Nuclear Safety Commission (CNSC) is announcing a change to the scope of the hearing planned for June 2016. This hearing is to consider an application from the Corporation of École Polytechnique de Montréal (Polytechnique Montréal) to revoke its Non-Power Reactor Operating Licence for its non-power subcritical assembly, and to amend its SLOWPOKE-2 Non-Power Reactor Operating Licence to include activities related to this subcritical assembly. The Commission was also asked to consider Polytechnique Montréal's revised financial guarantee and updated preliminary decommissioning plan.

The Commission will only consider the licence amendment and revocation application at the hearing. It will consider Polytechnique Montréal's revised financial guarantee and updated preliminary decommissioning plan at a later time.

The Commission has determined that a public hearing is not necessary to consider this application. The requested changes are administrative in nature and do not raise matters related to the protection of health, safety, security and the environment that would warrant being considered at a public hearing. The Commission will consider written submissions from Polytechnique Montréal and CNSC staff. The hearing submissions are not available on the CNSC website and must be requested through the Secretariat at the coordinates below.

Following the deliberations in a closed session and Commission decision on this matter, a record of decision will be published on the CNSC website at nuclearsafety.gc.ca and made available to the public on request.
