

Unplanned Energy Loss including High Lake Water Temperature (UEL including HLWT) (Mwe-hrs) (SPI 11)								
Unplanned Outage Extension Energy Losses (MWe-hrs)								
Unit Capability Factor (%) (SPI 10)								
Unplanned Capability Loss Factor (%) (SPI 11)								
Forced Loss Rate (%) (SPI 12)								
Notes: Unit capability factor (UCF) = ((REG – PEL – UEL) / REG) * 100% Unplanned capability loss factor (UCLF) = (UEL) / REG * 100% Forced Loss Rate (FLR) = FEL / (REG – (PEL + OEL)) * 100%
