Pickering Nuclear Generating Station Licence Renewal and Continued Operation to 2024

To Whom it May Concern,

AECOM supports the license renewal and continued operation of the Pickering Nuclear Generating Station to 2024. Pickering has operated safely in for 47 years providing clean carbon free electricity to the Province, while providing full time jobs, revenue to the province and supporting Ontario's GDP.

The Pickering Nuclear Generating Station has, and continues to make investments in the Plant that improve its safety for the extended operating period, and that will enhance its design to make it safer than ever before.

The continued safe operation of the Pickering Station to 2024 will continue to benefit the people of Ontario by 14% of Ontario electricity needs. This will reduce greenhouse gas emissions in the Province by 17 million tonnes y providing clean energy to the province, along with saving electricity consumers money on their electricity bill. The Pickering Station provides other benefits to the people of Ontario through taxation revenues, contributing \$1.5 billion to Ontario's GDP and by providing full time jobs in the Durham Region.

AECOM supports and looks forward to the continued operation of the Pickering Nuclear Plant.

Yours sincerely,

Carl M Daniel MASC P.Eng
Vice President and Chief Nuclear Engineer
