It is time to stop operating the Pickering Nuclear Station; it is past its operating time. There is no reason to risk the lives of over 7 million people. We have seen nuclear incidents go wrong in the past worldwide. It is time to learn from our mistakes. Let go of greed and money. Move towards compassion towards others and the environment. It shouldn't have gotten to the point where someone like me has to email you to tell you that this is not a good idea. It is common sense.
