To Whom It May Concern,

The Ajax Pickering Hospital and Ajax Pickering Hospital Foundation would like to submit this letter to confirm our position as positive interveners in the public hearings considering the operating licence renewal for Pickering Nuclear. As outlined in the Notice of Hearing, please note this is a written submission and we do not intend to present an oral presentation.

Ajax Pickering Hospital has benefitted from a strong partnership with OPG for many years and would like it recognized that OPG is an outstanding community supporter and has shown great commitment to enhancing health care for the citizens of the communities in which it operates.

On-going financial support of Ajax Pickering Hospital has been instrumental in making it possible to acquire much-needed equipment, such as significant funding to help build a Nuclear Medicine Clinic; funds to support a campaign to purchase the hospital's first-ever MRI machine; significant investment in redevelopment of the hospital; as well as a new CT scanner.

Also please note that together, Ajax Pickering Hospital and OPG have worked to ensure an effective emergency preparedness plan. As the closest hospital to a nuclear power station, OPG clearly takes its role seriously to ensure safety procedures are in place for any contingency that would require the hospital's involvement.

As such, Ajax Pickering Hospital supports a renewal of the OPG Pickering Nuclear operating licence for a period of ten years.

Sincerely yours,

Matthew Anderson
